

## || Health Care Fraud

Members of the Foster Swift Health Care Group regularly assist clients in structuring transactions to minimize Anti-Kickback, Stark II, False Claims and TBOR II issues. Providers also come to us to help develop effective corporate compliance programs.

Over the years, Foster Swift attorneys have been involved in many key cases before state and federal appellate courts. This includes authoring numerous *amicus* briefs, which have been referenced in many key state and federal appellate court opinions.
